Emotional:

Did anything bring on these symptoms?

Do any run in the family?

Please turn over.....

Life history – If you are happy to, please detail any events or times that were emotionally stressful or might possibly be unresolved. I have written in clues to the kind of issue that might come up at each life stage.

Life area	Issue
Conception to birth Planned? Wanted? Parents married? Right sex? Mum previous miscarriages? Mum supported and happy?	
Birth itself Forceps? C-Section? Premature? Cord around neck? Induced? Long labour? Foetal stress?	
Post birth period Breast fed? Mum PND? Incubated? Any separation from mother, at all? Early development?	
Early childhood Sibling issues? Good health? Strong family unit? Move house? Babysitters or nannies? Bed wetting?	
Relationship with parents Absent father or mum? Happy family? Loved? Received all the attention you needed?	
Schooling Bullied? Teachers ok? Good friends? Did well academically?	
Puberty and adolescence Early or late puberty? First relationships and sexual experience? Unrequited love? Regrets?	
Relationships – friends and family Aunties, uncles, grandparents, friends etc ? Difficult dynamics? Disapproval? Judgement?	
Bereavements / traumas Losses that still feel raw now? Abortion or miscarriage?	

What, in particular, do you hope to gain from this treatment?

Can you please tell me how you heard of me and my practice:

I understand that Andrew Kemp is not a medical practitioner and any kinesiology treatment given should supplement, not replace, conventional medical attention.
