

Life history – If you are happy to, please detail any events or times that were emotionally stressful or might possibly be unresolved. I have written in clues to the kind of issue that might come up at each life stage.

| Life area | Issue |
|---|-------|
| Conception to birth Planned? Wanted? Parents married? Right sex? Mum previous miscarriages? Mum supported and happy? | |
| Birth itself Forceps? C-Section? Premature? Cord around neck? Induced? Long labour? Foetal stress? | |
| Post birth period Breast fed? Mum PND? Incubated? Any separation from mother, at all? Early development? | |
| Early childhood Sibling issues? Good health? Strong family unit? Move house? Babysitters or nannies? Bed wetting? | |
| Relationship with parents Absent father or mum? Happy family? Loved? Received all the attention you needed? | |
| Schooling Bullied? Teachers ok? Good friends? Did well academically? | |
| Puberty and adolescence Early or late puberty? First relationships and sexual experience? Unrequited love? Regrets? | |
| Work issues Bullying? over-work? Stress? Financial issues? Unfulfillment? | |
| Relationships – friends and family Aunties, uncles, grandparents, friends etc ? Difficult dynamics? Disapproval? Judgement? | |
| Relationships – partner Stagnancy? Intimacy issues? Separate interests? Overwork? Enough time for each other? | |
| Adulthood generally Any miscellaneous issues not covered above, accidents? Traumas? | |

What, in particular, do you hope to gain from this treatment?

Can you please tell me how you heard of me and my practice:

I understand that Andrew Kemp is not a medical practitioner and any kinesiology treatment given should supplement, not replace, conventional medical attention.
